

## ELITE LINE REFRIGERATED COUNTERS GN SALADETTE

The Saladette counter is made from AISI 304 18/10 stainless steel throughout, with a single-body structure. It has a sliding cover and polypropylene chopping surface.

It comes with an electronic control panel, foamed-in evaporator and slight in-cell ventilation.

It has automatic defrosting and condensation water evaporation systems.

The temperature ranges from +2°C/+10°C, while each door compartment comes with one guide pair as standard.

CFC and HCFC FREE.

Models	SALA1001
	
<b>No. compartments</b>	2
<b>Range</b>	+2°C +10°C
<b>Operation</b>	Static with ventilation
<b>Element external dimensions</b>	
Width	900
Depth / with doors open	700/1100
Height	865
<b>No. and type shelves (provided)</b>	-
<b>Defrost type</b>	Automatic stop
<b>Condensation evaporation</b>	Automatic Hot Gas
<b>Compressor</b>	
Evaporation T [°C]	-15
Cooling capacity [watt]	570
<b>Refrigerant</b>	
Type	R404a
Absorption [watt]	320
<b>Supply voltage</b>	230V / 50Hz 1+N
